

FLATBED TRAILER

Flatbed semi trailers are designed to transport products which are long, heavy or oddly proportioned which creates a challenge when loading/unloading an enclosed trailer. The open nature of the trailer allows for loading / unloading from the rear, sides or top; allowing forklifts and cranes to create an even lift on the freight. Flatbeds are best suited being loaded / unloaded from the ground, rather than from a dock.

FLATBED SEMI TRAILER DIMENSIONS

Length	48' - 53'
Width	102"
Height	60"

FLATBED TYPICAL CARGO MAXIMUMS
